**INTERNATIONAL PRELIMINARY REPORT
ON PATENTABILITY**

International application No.
PCT/B2004/000787

Box No. I. Basis of the report

1. With regard to the **language**, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.
- ☐ This report is based on translations from the original language into the following language, which is the language of a translation furnished for the purposes of:
- ☐ international search (under Rules 12.3 and 23.1(b))
 - ☐ publication of the international application (under Rule 12.4)
 - ☐ international preliminary examination (under Rules 55.2 and/or 55.3)
2. With regard to the **elements*** of the international application, this report is based on *(replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report)*:

Description, Pages

1-13 as originally filed

Claims, Numbers

1-18 filed with telefax on 02.05.2005

Drawings, Sheets

1/9-9/9 as originally filed

- ☐ a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing
3. ☐ The amendments have resulted in the cancellation of:
- ☐ the description, pages
 - ☐ the claims, Nos.
 - ☐ the drawings, sheets/figs
 - ☐ the sequence listing (*specify*):
 - ☐ any table(s) related to sequence listing (*specify*):
4. ☐ This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).
- ☐ the description, pages
 - ☐ the claims, Nos.
 - ☐ the drawings, sheets/figs
 - ☐ the sequence listing (*specify*):
 - ☐ any table(s) related to sequence listing (*specify*):

* If item 4 applies, some or all of these sheets may be marked "superseded."

**INTERNATIONAL PRELIMINARY REPORT
ON PATENTABILITY**

International application No.
PCT/B2004/000787

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Yes: Claims	1-18
	No: Claims	
Inventive step (IS)	Yes: Claims	1-18
	No: Claims	
Industrial applicability (IA)	Yes: Claims	1-18
	No: Claims	

2. Citations and explanations (Rule 70.7):

see separate sheet

**INTERNATIONAL PRELIMINARY
REPORT ON PATENTABILITY
(SEPARATE SHEET)**

International application No.

PCT/IB2004/000787

1. A device to carry out physical exercise according to the preamble of claim 1 is known from the document US-A-5441466 (D1). A double-sided device, comprising also a side, as claimed in the characterising part of claim 1, that includes an inflatable flexible element which can be used for balance, proprioception and coordination exercises is there not disclosed.

Therefore, claim 1 meets the requirements of Article 33.2 PCT.

In the available prior art there is no suggestion that by means of a double-sided device as the one resulting from the characterising portion of claim 1 it could be possible to work on both the areas of aerobic and cardio and the areas of balance, proprioception and coordination, thereby increasing the training possibilities with a single device.

Consequently, claim 1 involves also an inventive step (Article 33.3 PCT).

The subject-matter of claim 1 is industrially applicable as a device to carry out physical exercise (Article 33.4 PCT).

2. The wording "or the like", used in the claims 1- 3, 5-7, 9 and 17, is not clear (Art. 6 PCT). It should be erased from these claims and the specific other possibilities, if they were originally disclosed in the application, should be introduced in the claims.

NEW SET OF CLAIMS

Claims

1. Device to carry out physical exercise that comprises a double-sided support (1), with one upper and one lower side, one of which is considerably rigid and the other includes an inflatable flexible element (3) or the like, resting means for the support that allow users to carry out aerobic and cardio exercises and to work on their physical condition in general using the considerably rigid side, **characterised** in that said inflatable flexible element (3) or the like is slightly dished and in that said inflatable flexible element (3) or the like allows users to carry out balance, proprioception and coordination exercises when standing on it, so that the device allows users to work on both the areas of aerobic and cardio and the areas of balance, proprioception and coordination.
2. Device according to claim 1, **characterised** in that said resting means are feet (5) that rotate around the support (1) and around a considerably horizontal axis.
3. Device according to claim 1, **characterised** in that said inflatable flexible element (3) or the like is detachable and is joined to the support (1) by joining means.
4. Device according to claim 1, **characterised** in that said considerably rigid side comprises a contact platform (4) joined to the support (1) by joining means.
5. Device according to claims 3 **characterised** in that said joining means comprise a housing (2), which accommodate said inflatable flexible element (3) or the like.
6. Device according to claim 5, **characterised** in that said housing (2) comprises means (7) to set the position of said inflatable flexible element (3) or the like.
7. Device according to claim 5, **characterised** in that said inflatable flexible element (3) or the like comprises means (8,10) to set its position in said housing (2).
8. Device according to claim 1, **characterised** in that said flexible element (3),

being inflatable, has a rectangular base.

9. Device according to claim 1 characterised in that said inflatable flexible element (3) or the like comprises the more density or thickest area of the base.

10. Device according to claim 1, characterised in that said flexible element (3), being inflatable, comprises supports (18) on its base.

11. Device according to claim 3 characterised in that said inflatable flexible element (3) or the like comprises a platform joined to the base.

12. Device according to claim 2, characterised in that said support comprises gaps (14) to partially scramble said feet (5).

13. Device according to claim 1, characterised in that said support (1) comprises means (11) to fix elastic bands for exercises entailing toning up muscles, body building and rehabilitation.

14. Device according to claim 4, characterised in that said contact platform (4) is manufactured in a point-elastic material that is capable of absorbing and restoring energy.

15. Device according to claim 1, characterised in that it comprises means (21) to regulate its height.

16. Device according to claim 1 characterised in that said support (1) and said feet (5) comprise means (12) to hold and handle said device.

17. Device according to claim 1 characterised in that inflatable flexible element (3) or the like comprises means (20) to hold and handle it.

18. Device according to claim 1 characterised in that said flexible element (3), being inflatable, comprises at least one valve (19) to modify the pressure inside it.

VIII-3-1	Declaration: Entitlement to claim priority Declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application specified below, where the applicant is not the applicant who filed the earlier application or where the applicant's name has changed since the filing of the earlier application (Rules 4.17(iii) and 51bis.1(a)(iii)) Name:	in relation to this international application PROTECTIVE COMFORT GROUP, S.L. is entitled to claim priority of earlier application No. P-200300755 by virtue of the following:
VIII-3-1(i) v).		an assignment from PEMARSA, S.A. to PROTECTIVE COMFORT GROUP, S.L., dated 12 March 2004.
VIII-3-1(i) x)	This declaration is made for the purposes of:	all designations
